

Access to Work

Access to work is a Government scheme which supports people with disabilities or long term health conditions to access provisions that help them at work such as:

- A Support Worker
- Equipment
- Travel to and from work (note Access to Work may also pay for a Support Worker to do this if required)

Finding the right person for you:

We pride ourselves on finding the right person for you and in doing so take time to get to know you, your circumstances and the specific support and type of person you wish to support you.

Your support, your choice. To make sure the Support Worker is right for you, we will organise and facilitate a “meet and greet” session for you to meet your potential support worker. Giving you the opportunity to ask questions and decide for yourself if they are the right person for you.

We will make the final arrangements and start supporting you within your workplace.
